

EliteID

CLOUD ID BADGE PRODUCTION

Create and print ID badges from any internet connected computer or mobile device. No onsite server or database required.

ELITEID

Data Driven Design

Sign in and view real-time statistics from a modern dashboard. Use your existing data and automation to make ID production efficient and user-friendly.

See reverse for a feature chart to help choose your subscription tier.

Enrollment is as Easy as 1-2-3

The guided enrollment workflow ensures the required information and ID photo are collected before the ID is printed.

Cross-Platform System Integration

EliteID is versatile and open for integration with many popular transaction systems and hardware configurations.

Desktop or Mobile Photo Capture

Use your computer's integrated/USB webcam or any mobile device to capture ID photos quickly and easily.

Fully Scalable

EliteID is fully scalable for any organization. Each subscription comes with unlimited cardholder records and card designs.

Manage Cardholders with Lists

Create dynamic lists such as "Junior Class", or "Enrollees without Photos". Batch print the list or navigate through a list to quickly attach ID photos.

CloudCard Integration Available

Online photo submission can be seamlessly managed from one location within EliteID.

EliteID

FEATURES
